GMK
SKILLS TRAINING
DISTANCE-LEARNING PROVIDER

About Us

ABOUT GMK EDU

GMK EDU skills training specializes in bridging the gap and offering the alternatives to traditional learning. Focusing primarily on employable skills training and development.

**We have approx. 5000 students
benefiting from our group**

VISION & MISSION

GMK empowers students to acquire all the necessary knowledge and skills, influencing a new age of talented minds into masters of their trade and successfully launching them into the world of work.

WHAT IS A GARDEN DESIGNER?

A garden designer is a professional who plans and creates outdoor spaces such as gardens, courtyards, and landscapes. Their work combines creativity, horticultural knowledge, and design principles to make functional and beautiful environments.

They typically:

Assess the site

Studying soil, sunlight, drainage, and existing plants.

Develop design concepts

Choosing layouts, plant types, materials, and features like paths, ponds, or seating areas

Create detailed plans

Drawings or digital designs that guide construction and planting

Collaborate with landscapers

Ensuring the design is built according to plan

Continued...

WHAT IS A GARDEN DESIGNER?

Garden designers focus on aesthetics and usability, often blending art, ecology, and architecture to create spaces that suit the client's lifestyle and the natural surroundings.
